I call my work = "AZADEH"

I chose my own name because "AZADEH" means feeling free; and so anyone can see anything in them, interpret, imagine and see what they want in my drawings.

So feel free to see & feel anything.

It doesn't hurt to daydream and fantasize once in a while.

I was first inspired by a rose my dad taught me to draw when I was 10 years old. I have been drawing in my own unique style ever since.

I've come up with this pattern on my own and they are all complete originals, none of them are copies.

I started out with scribbles and doodles, and came up with something abstract with a hint of cubism.

I use pens to draw.

I have entered the exhibitions below and got good feedback;
